

Grace Montessori School Illness Report

Date: _____ Child's Name: _____

Your child had the following indications that he/she was not feeling well today:

Temperature of: _____ Time taken: _____ am/pm Staff member: _____

Please look for a check mark next to a symptom below to indicate action should be taken by the responsible parent/guardian:

COLD – Mild, no temperature, feeling okay. If there are no other symptoms, your child **MAY** attend school.

Fever – A warning that all is not right with the body. If your child has a fever of 99 degrees or higher orally or after adding one degree when taken under the arm, you must keep your child at home for 24 hours **AFTER** it goes down to 98.6.

Sinus Infection – Greenish discharge from the nose might be a sign of infection. Your child needs to stay home until it is gone or return with a doctors note.

Coughing – If the cough is minor, your child may attend school. If the cough is chronic, deep or hacking it could mean an infection. Your child needs to stay home until the cough is gone or return with a doctors note.

Sore throat - If mild, the child may remain in school

Sore Throat - Child may appear to have one of the following: Swollen tonsils or glands, white spots in throat, hurts when swallows and/or complains of not feeling well. You might need to seek advice from your doctor. Child needs to stay home until the symptoms are gone or return with an approval note from the doctor.

Rash - If not contagious, your child may attend school.

Rash - We are unable to determine what it is. Your child needs to stay home until the rash is gone or return with an approval note from the doctor.

Stomach Ache - Light stomach ache, no diarrhea, vomiting or temperature. Fed light foods to him/her today. May return to school

Stomach Ache - Vomiting, severe cramping. Must be kept home for 24 hours after last loose stool.

Diarrhea - After the third loose stool or if hard cramping is taking place, your child must stay home for 24 hours after the last loose stool or hard cramp.

Conjunctivitis (pink eye) - Redness or discharge from one or both eyes. Pink eye is very contagious. Your child will need to be on medication for 48 hours and have a return approval note from the doctor.

Ear Infection - Complains of ear pain and has a temperature. Your child needs to be on medication, have a normal temperature and be free of pain or return with an approval note from the doctor.

Head Lice - If we detect the nits or lice, you will be required to pick up your child immediately. Your child may return after treatment with a medicated shampoo and after **ALL OF THE NITS ARE REMOVED**. A vinegar rinse will soften the nits so you are able to comb them out more easily

Allergies - Runny nose and slight congestion. Your child may return to school.

Flu - You must keep your child home for 24 hours after the last symptom of the Flu.

Vomiting - Mild, if your child vomits only once, he/she may attend school.

Vomiting - Chronic. your child vomited more than one time today and you must keep him/her home for 24 hours after the last incident of vomiting.

Medication - A medication release form must be filled out with your child's name, the date the medication is to be given, the time the medication is to be given and the dose to be given. **ALL** medications must be kept in their original container. Ask your child's teacher for a medication release form.
